For those wondering what a shadow box is, it is a glass front enclosed container that holds items you want to display. The shadow box is a thematic object symbolizing one subject matter or focus. The shadow box is an artistic piece that displays proud achievement and accomplishment. My goal is to work directly with you to create a custom shadow box to display whatever you are interested in. Whether you are interested in a coast guard shadow box or shot glass display boxes, I will work with you to create something timeless. Our selection of shadow boxes listed online here range from wood display shadow boxes, belt buckle shadow boxes, to arrow of light display boxes. Without even knowing, you may have probably seen a shadow displaying a flag, medals, or pendants. I am ready to help you today. Send me an e-mail if you require any special requests; please include "SHADOW BOXES" in the subject line to avoid landing in the spam folder.
